Art Unit: 1755

This application is in condition for allowance except for the presence of claims 6-10 to an invention non-elected with traverse in the reply filed on 22 September 2004.

Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Applicant's election with traverse of group I in the reply filed on 22 September 2004 is acknowledged. The traversal is on the ground(s) that there would be not be a serious burden on the office to examine all the claims. This is not found persuasive because the scope of the claims is not coextensive and different searches would be required for each set of claims.

The requirement is still deemed proper and is therefore made FINAL.

Claim 5 of has been rejoined as it requires every limitations of claim 1. Amendment of claim 6 to be dependent from claim 1 would render claims 6-10 similarly allowable and the restriction requirement with respect to claims 6-10 would be withdrawn and the claims rejoined.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the basic and novel characteristics of the invention, such as the advantageous absorption evaporation cycle, obtained when using the combination of components of the coating, in the proportions recited in the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The Information Disclosure Statement submitted has been considered. An initialed copy is sent herewith. The first two Foreign Patent Documents cited have not been considered because no copy thereof has been entered in the application record.
